### **Rivet Education Adds Eight New Providers to the Professional Learning Partner Guide**

Tool Now Features Providers that Service 88% of All High-Quality Instructional Materials Across All 50 States

**Baton Rouge, La:** Rivet Education today announced the addition of eight new professional learning providers to the national [Professional Learning Partner Guide \(PLPG\)](#), increasing the total number of providers featured in the guide to 45. Akin to EdReports’ reviews of high-quality instructional materials, the PLPG is a free list of organizations designed to provide district and state leaders with the best curriculum-aligned professional learning services in the country.

“Rivet Education recognizes that finding vendors who meet the criteria for being able to deliver high-quality, curriculum-aligned professional learning is hard work. Our goal with the PLPG is to make it easier for teachers and leaders to find professional learning providers that can provide them with the support that they need to implement a high-quality curriculum. A high-quality curriculum paired with aligned professional development is a critical component in increasing student achievement and reducing classroom inequities,” said Jennifer Wells, Professional Learning Partner Guide Director.

In addition to the eight new providers to the PLPG, four existing providers added to their curricula and services list.

#### **New Providers**

CPM Educational Program  
Kids-First Education  
Fishtank Learning  
North Mississippi Education Consortium  
Open Up Resources  
Mathematics Vision Project  
Teaching Matters  
Wade Institute for Science Education

#### **Providers Adding a Phase**

Wisconsin CESA 2  
Great Minds  
The Math Learning Center

#### **Providers Adding a Curriculum**

ANet  
Carnegie Learning

Rivet Education leverages its expertise in curriculum-aligned professional learning to conduct a rigorous evaluation of all organizations featured in the PLPG. Through a three-step process, reviewers evaluate providers' professional learning materials against a set of [criteria](#) to assess if an organization provides significant evidence of high-quality, curriculum-aligned professional learning services in one of four phases: adoption, launch, ongoing support for teachers, or ongoing support for leaders.

Organizations that are interested in being featured in the PLPG for the first time or adding new curricula and/or phases of support to their existing profiles can email [info@riveteducation.org](mailto:info@riveteducation.org) for additional information about submission requirements and deadlines.

For more information about the PLPG, visit our website at [www.riveteducation.org](http://www.riveteducation.org) or check out our [Professional Learning Partners Guidebook](#) for comprehensive support in selecting, interviewing and managing professional learning partners.

**About Rivet Education:** Founded in 2019 by members of the team that managed and led nationally renowned reform efforts in Louisiana, Rivet Education is the only company in the U.S. to offer school districts a free, online tool that provides comprehensive and objective analysis of professional learning providers. Rivet Education provides consulting services and products that ensure educators have the instructional materials and professional learning needed to provide all students in the country with the education they deserve.
